SOUTHAMPTON ORIENTEERING CLUB

6TH ANNUAL NOVEMBER CLASSIC, 4TH NOVEMBER 1973

RESULTS

The Organizer's comments must include apologies to all those who were in any way inconvenienced on the day by organizational weaknesses. In excuse of my faults I can only say that this is the first major event I have been asked to organize and however hard one tries to think ahead, one is almost bound to make mistakes where one lacks experience. My chief one was to assume that since the Classic registration set-up seemed satisfactory to me, before I joined the club, it was best to leave it much as it was. But the unexpectedly large number of entries - 822 or 47 per cent up on last year - put this side of things under a lot of strain. Sorry about this; it will not happen again. As far as I know the rest worked reasonably well, although the results processing was in the end also adversely affected by the sheer weight of numbers. Anyhow, may I thank all those who bore with my personal and our collective failings patiently. Special thanks to those who spared a kind word for all those who helped with a task which taxed our limited manpower resources fully. To those who felt dissatisfied I recommend trying to organize a major event!

The first problem in planning this year's Classic was the shape of the land. We had hoped originally to provide a parking area near the top centre of the map, and this would have facilitated a wider sweep around all the woodland, and perhaps less overlap of courses. I don't need to tell you that the second problem was the tussocky marshes, which were unpredictable and not plottable with sufficient accuracy to remove all elements of luck in route choice. If your major impression of my efforts was that I was unnecessarily sadistic, I deny it! However, Mike Tween did save me from one quite nasty route (on the D course), and made many valuable adjustments to the courses which I much appreciate. If you all got as much enjoyment out of it as I did, then it was certainly worth it. I particularly liked seeing some of the top performers in the sport looking slightly lost in a bit of the forest I know backwards - surely the only time I'll have anything over them - because that meant that it wasn't at all as easy as I had feared!

Lost property: O-suit trousers, compass, and "Know the Game - Orienteering".
