

**SOUTHAMPTON
ORIENTEERING CLUB**

**NOVEMBER
CLASSIC**

Sunday 6 Nov 1983

RESULTS

CONTROLLER'S REPORT

Gerry Barrell did all the donkey work for which I am most grateful - he and other members of SOC put in their usual hard and effective work. The day we have a perfect event I guess I will threaten to give up! As usual we can again try and learn a few lessons, though most of you seemed to thoroughly enjoy yourselves which is the most important aspect.

My thoughts for next time:

- With two planners, work together to reduce the total number of control sites. Too many leads to logistic problems at the weekend.
- With hides, ensure that they are erected and checked well before the weekend.

Select all control sites well in advance and really eliminate any doubtful ones.

If the map is doubtful, try to avoid the affected areas.

Do'nt be tempted into late changes unless essential.

These five points account for practically all the minor problems on the day. To conclude may I tell of one such incident:

Planner A erects a hide. Planner B arrives at dusk to place the flag. Planner B erects a hide and hangs the flag. Controller B visits site in near darkness. First competitor finds Planner A's large hide and sees tape. Controller A goes out to investigate and demolishes Planner A's hide which was 20 metres out. Most competitors were unaware of the problem. My apologies to the small number of runners affected. Next week I could be the competitor - ours is a complex sport!

Chris James (SN)

PLANNERS' REPORT

1984 must be the worst year for bracken in the New Forest for many years. We initially ran the legs in June with little plant growth and assumed that it would be the same in November! Had we known what it would be like we would have planned differently.

As Orange start planner I worked on the principle that the controls should be reasonably obvious. I hope that you found this to be so. My only apology must go to competitors on course L. In order to make the competition simpler for all the junior B classes and the most junior A class we sent out written control description lists with the final details. Unfortunately I mis-transcribed from a map to the lists and a code 351 was sent out as 357. I hope that it did not spoil the event for too many of you - it was correctly listed on the map. (I have made a mental note to use crossed 7's in future.

In an attempt to make the best technical use of the forest for all courses it was decided to use a number of extra hides. Other constraints meant a re-planning of the centre legs of the M21A course at a late stage using hides placed in otherwise featureless areas of forest. In retrospect this was a mistake as the areas involved were not of the best - especially because of the bracken. All of the hides proved difficult to position exactly, because of the bracken and some may well have been 10 - 15 metres out on the day. However, flags were hung high to compensate.

Bob Joiner Planner Courses I - P
Alan Velecky Planner Courses A - H

ORGANISER'S REPORT

What a difference good weather makes to the organisation of an event as large as the Classic with over 1100 orienteers competing in the Badge/Ranking event and a horde of enthusiastic Wayfarers also turning up. The New Forest looked beautiful in its Autumn colours and the vast majority of competitors were very forgiving of the minor problems which inevitably occurred, all of which were a consequence of the necessity of providing good parking facilities, albeit a longish but pleasant walk from the starts, and the wisdom? of the planners in placing the finish in the middle of the forest, literally miles from the nearest source of drinking water. Apologies to those who hit the 10 minute period when the water was in transit.

We were very pleased with the support for our B and C courses in a wide range of age classes and we also felt that the late entry and EOD system meant that few competitors were denied a run in the class of their choice. Incidentally, masochists can run in the Southern Night Championships on the night before next year's Classic (Nov 3/4).

Acknowledgements:

Forestry Commission and Mr P J Green - Land permission

Mr R Hughes and Mr M Clarke - Forestry Commission

St John's Ambulance Brigade - (a busy day!)

Peter Dominic - plastic carrier bags

Wessex OC - CB radios

Swan National Van Hire (at a discount)

All those members of SOC who gave so willingly of their time

Those competitors who unselfishly gave up their run to aid injured competitors

Finally those of us clearing up at the end were less than enthusiastic about A Belcher (UBOC), N Marshall (RUOC), T Stephenson? (SWOC) and C Harber who decided to keep their Control Cards as mementoes of the Event.

David Bonser

Note on times of competitors on courses I-P (Orange Start)

As a result of a clock error the times of all competitors who started from the Orange Start have been reduced by 3 minutes compared with the DIY results on the day.
