ORIENTEERING CLUB**

NOVEMBER

CLASSIC

Sunday 4 Nov 1984

RESULTS

OUT OF BOUNDS

OUT OF BOUNDS

CONTROLLERS' COMMENTS

Ranking events are a real challenge and we would like to record our thanks to all of the team who worked so hard to overcome varied problems in producing a successful and enjoyable November Classic.

There are only two points that cause real concern. Firstly, we intercepted at least one competitor ignoring the instruction regarding crossing the main road by the underpass. Not only did he put himself at risk, but in crossing "uncrossable" boundaries risked the whole reputation of Orienteering. Thoughtless behaviour can have a disastrous effect on our relationship with landowners, the police and had there been an accident, the public at large. Secondly we cannot see why event organisers have to go through hours of needless worry because a small minority of competitors fail to bother to report to the Finish. Despite requests, control card stubs were incomplete, and only after a lengthy search and enquiry of every vehicle in the camp-site did it become clear that everyone had returned safely.

PLEASE make time to complete the details on your control card stub carefully. We can assure you that it is greatly appreciated by the event officials.

Finally, to end on a complimentary note, our thanks to the Orienteer (M19) who on hearing a whistle gave up his run to rescue a tearful little maiden (W10) in some distress. It is nice to know that chivalry is not yet dead.

John Warren, Cris Tween (WIM)

ORGANISER'S COMMENTS

Despite the usual crop of problems in the weeks preceding the event, the sun shone on the day and to judge from comments received, the 1984 Classic was a very enjoyable occasion and once again visitors to the area were able to see the New Forest at its colourful best.

The Club was very pleased with the support for the String-0 and Novices' courses (innovations this year) and it is hoped that the use of a reasonably flexible late entry and EOD system enabled most competitors to run in the class of their choice, although this will always be a problem for the organisation with the supply of overprinted maps and the Forestry Commission limit on the number of competitors.

Unfortunately the thoughtless behaviour of a small minority in the Car park - mainly the ignoring of parking directions, which were essential as the site was still open to the public means that SOC may not have access to this very well equipped site again. I must also emphasise that the conditions of the Forestry Commission Permit specifically exclude dogs from the competition area.

Acknowledgements

Forestry Commission, especially Mr Hughes, Mr Fletcher and the Camp-site Warden.

St. John's Ambulance Brigade.

Hampshire Constabulary.

The Army.

Members of SOC who helped on the day and especially those who gave up so much time prior to the event.

David Bonser

PLANNERS' COMMENTS

What a pity all the courses could not be at least 10 km in length and hence enable everyone to enjoy the beauty and variety of terrains experienced by those who used the Southern Start on a perfect Autumn day.

The courses on the mainly open Matley Heath were restricted by the out of bounds conservation area and the fact that the large linear wooded marshes had to be classified as uncrossable. Plenty of controls and courses going in different directions seemed the best answer for this fairly non-technical area. It provided a perfect contrast to the ancient forest in the north.

On Busketts Lawn, stream crossings were marked on the map and there would have been compulsory if we had had a repetition of 1977 November Classic weather. In the event, the stream was quite low and could be crossed in most places. Nevertheless, the most junior courses were kept south of the stream. They were also, for obvious reasons, kept inside the inclosure, and a further limitation was the large out of bounds area round which they had to circulate. We hope that despite all this they contained some interest and variety. We are grateful to Cris Tween for suggesting improvements to these courses.

A major object in planning course M (M13 etc) and the adult courses was to bring competitors to the most interesting northern and western areas as quickly as possible, so that they spent the minimum time in the rather featureless plantation blocks. When they reached these areas we hope they found the vagueness of New Forest clearings and paths challenging, (though we felt that the mappers had done an excellent job on these) and a good test of orienteering skills.

It was hoped in the Novices' courses to provide leg lengths without too many orienteering problems, though the controls outside the inclosure, in the north, were more distinct on the ground than on the map. We hope that those who enjoyed these courses will come back for more.

Many thanks to our Controllers for their thorough approach and helpful comments. We especially appreciated the amount of time John Warren devoted to this event so soon after organising the Caddihoe Chase. We are also very grateful to Richard Jeans and Gerry Barrell and many other SOC members for their help at every stage.

Jean Velecky, Bill Davidson
