String Course	19-20
SOUTHERN TEAM CHAMPS	20
UNCLAIMED PROPERTY	20

PLANNER'S COMMENTS

I hope that you all enjoyed the orienteering and perfect weather of this year's Classic. Some of you will have recognised the eastern area as part of the early Highland Water map and the southern area as part of the Blackwater map both, of course, resurveyed and containing, in places, a fair amount of water at the moment.

Although I should have liked to have used the new area in the north and west more, the lack of car parking in this area dictated otherwise. The Forestry Commission requested, at the last moment, that the centre area of ancient woodland in the north east be avoided, hence those courses using this area went around the edge. Some areas had a heavy growth of bracken and could not be used.

My thanks to the event Controller, Brian Parker and his assistant Ian Diamond for their advice and meticulous checking which ensured that no mistakes occurred on the day. This is a particularly difficult task when using a new and slightly delayed map. My thanks also to the forest team who made sure that all the control sites were complete (and dismantled afterwards).

PETER ROBSON

ORGANISER'S COMMENTS

No matter how well you think you have organised everything, you still need luck, especially with the weather. We all enjoyed the best day for weeks - even the man who complained the sun got in his eyes! We were also fortunate on Saturday that the foxhunt and hunt saboteurs did not damage any control sites, and the landlords of our equipment store changed the locks (without telling us) AFTER we had loaded up the van.

I saw my job more as a co-ordinator so delegated everything I possibly could, as the following Team Leaders will testify:- Allyson Foord (Assistant Organiser/Prizegiving), David Bonser (Printing), Peter and Heather Webb (Entries), Norman Grundy (Start), Gerry Barrell (Finish), Tim Holt (Results), Shirley and Richard Moss (String & Wayfarers) Lubor Velecky (Site), Chris Tope (Equipment). I am grateful to them and all SOC and SUOC members who helped before, at and after race day. They did such a splendid job on Sunday that I had little to do and wandered round the race site enjoying myself by doing odd jobs.

Many people thanked me for providing them with a good time in the forest - I have passed on their comments to the people responsible - Peter Robson, Brian Parker, Ian Diamond and the map team of John Horton, Roger Pleasant and Colin Hicks.

Many thanks also go to the Forestry Commission for the use of the forest, Barclays Bank for sponsorship and Mr. Green for presenting the prizes, St. John Ambulance Brigade (only a few minor injuries), Dave Bradnack for acting as mapping adviser, and those involved with the sport's first drug tests for performing their onerous duties unobtrusively.

We hope the juniors enjoyed the experiment of a split prizegiving (as advocated by Ned Paul in Compass Sport) - sorry some of you fell in the ditch collecting your prize. Some of you objected to handing in your map - this is done on grounds of fairness. Some of you also tried to disrupt our map reclaim system. At least we were able to tell most of you who had taken your map bags.

Shirley Moss's Junior International String Event was enthusiastically received by the youngsters - a lot of effort was put into the preparation. It is too soon to publish a set of accounts, although a reasonable surplus is expected. Detailed accounts will be sent later to the 3 Southern newsletters.

Black marks to T. Decker (ROC) and T. Dooris (SN) for signing in but not advising us they had finished.

To end on a happier note, on behalf of the club, a big thank you to all traders and competitors for your behaviour, complying with the various restrictions imposed, parking sensibly, keeping the area tidy and giving a very good impression to both the Forestry Commission representatives and Mr. Green.

Finally, thanks to my wife and eldest son Paul for all their hard work and for tolerating me and the Classic for the last year.

DAVID NIXON

CONTROLLER'S REPORT

There is a 'rule' amongst controllers that you should never stand near the Finish unless you are exceptionally confident about the quality of the event. You may have noticed that I did indeed spend most of the day doing just that, and wearing an identifying armband! That is what I thought of the event; I hope you agree with me.

This is not to say that the run-up to the day was trouble-free, far from it! I did have a couple of bad moments beforehand. One was when the map was unexpectedly but severely delayed and the spectre of postponement did linger for a while. The other was when the planning was nicely finished and the Forestry Commission declared an important area out-of-bounds because of dangerous trees!

I have come away from this November Classic being very impressed indeed by Southampton Orienteering Club. There seemed to me to be no aspect of the competition not deserving of praise. I particularly liked the quiet, almost secret start, a fitting way to be introduced to a forest at its most beautiful. The same quiet seemed to pervade the results marquee where the cards were processed with a model efficiency. To these and David Nixon's other teams, I offer my congratulations.

Above all, however, I have to thank Peter Robson (Planner) and Ian Diamond (Assistant Controller). Without them I would not have been able to do my job to the standard a National Event requires.

BRIAN H. PARKER

24	J. CLERICI	W4	HOC)	- RET	

The first 5 competitors home for each team scored team points. Great Britain was therefore the winner with the lowest total time of 81 minutes. ALL Great Britain runners will receive a small prize through the post.

We had an unexpectedly large entry of 100 on the String Course. My apologies to the 'also-rans' who registered too late to receive one of the 80 team numbers I had prepared. Also to the 3 competitors who had no finish time recorded.
