

Southampton Orienteering Club

November Classic

4 November 2001

Denny Lodge

Badge Courses

Organiser's Comments

On the basis that no-one came looking for me with malice aforethought I guess it must have gone reasonably well. The weather wasn't too bad which is always a great help although the Sunday was the worst of the bunch from Friday through to Monday and the later runners had the best of the sunshine. As usual all the SOC helpers performed personfully and I suspect that whatever cracks there were in the organisation were so skillfully papered over that neither you nor I noticed them.

Although the site offers many advantages for the main event the fact that there is only one track out into the forest meant that the wayfarers start and finish (which was also used by the Cadet Championships) was somewhat divorced from the main event. I hope that would be wayfarers were not put off by the distance.

If I did a full list of "thank yous" you would still be reading this at Christmas but there are a few that I would feel guilty about not mentioning - Barbara ("every orienteer should have to do this once") Ralph who did the entries Terry Smith who provided about two thirds of the computer hardware for the event David Currie who provided the other third and stitched it all together Tim Angel who was forever on the prowl around the site making sure that any issues that arose were never allowed to escalate Roger Holehouse for organising the Cadet's Championships and and . . . look out Christmas here we come!

A final thank you to you the competitors for turning up and making the effort worthwhile. I hope we'll see you again at next year's event.

Julian Lyne

Planner's Comments

From the comments received so far it appears that most of you enjoyed your day. The results show winning times generally within BOF guidelines with a few longer ones. The bracken unusually this year was still prevalent on the day of the event and some of the "Elephant tracks" observed when collecting controls showed that later competitors may have had the advantage.

There were few criticisms but one worthy of mention is that some competitors had difficulty on the M/W10B course between controls 7 & 8. This followed a slightly indistinct path which with hindsight should have been taped or at least had an extra control halfway along its length. Although only a few competitors had a problem it once again illustrates how the junior courses require the most attention to detail.

You will have been unaware that there were 21 out of bounds areas imposed by the Forestry Commission none of which we were permitted to show on the map or on the ground. This together with an extensive path network and relatively few contour features made planning challenging courses a challenge in itself! However the subtle features of the New Forest (re-entrant shallow!) and the delightful woodlands in the North caught more than a few of you out. This is presumably what brings 1000+ of you back every year!

A big thank you especially to Controllers John and Trevor my "Forest team" or their invaluable help before during and after the event and to all of you for coming and making the effort so rewarding on the day.

Graham Harrison

Controller's Comments

With John Shucksmith as my assistant I agreed to control the November Classic in the spring. In April I ran the London Marathon and since then I have had a severe knee problem which makes walking difficult and certainly prevents me from running. Furthermore I then booked an autumn holiday during half term week not realising at the time that this would involve me being away on the weekend of the event! I am therefore extremely grateful to John Shucksmith for doing most of the leg work in the forest and to John Warren for stepping in and controlling on the day.

The area of Denny Lodge is relatively flat with an extensive path network and therefore not particularly technical and I am sure you will wish to thank Graham Harrison for all his hard work in providing some interesting and challenging courses especially bearing in mind the areas that were designated as out of bounds.

I understand that most competitors enjoyed their runs with a few encountering problems with navigation in the area to the north of the finish where there are few line features and by which time competitors were nearing the end of their course and therefore tired. May I also apologise to those few competitors on course 16 who found the rides between controls 5 and 6 and between controls 6 and 7 somewhat indistinct.

On behalf of all the competitors may I thank Southampton OC for again putting on an enjoyable and well-organised November Classic.

Trevor Bridle

String Course

Thank you all for coming. I hope that no one minded a somewhat longer course meant to lead you all through a variety of terrains. I was unable to be there on the day but my spies tell me that no one complained or collapsed. Incidentally this was perhaps the driest bit of the wood and absolutely flat.

Lubor Velecky and the Team
